15 participants maximum to allow the greatest participant-instructor interaction

Come join the fun and learn how to edit your images to the next step in Adobe's powerful yet easy to learn software called Lightroom. This software is quickly becoming the go to program for professionals as well as enthusiasts to do the majority of their editing at the speed of light. Adobe is now pushing the photographic community toward Lightroom not requiring a monthly subscription fee light Photoshop does. In this class, we will be refining our creative eyes while editing your images to the next level in Lightroom's Development module. We will be going in-depth into the when and why to use these tools instead of merely how to use them. We, as a group, will review and critique students' submitted images to determine directions and strategies for further editing as well as potential camera capture suggestions. We will be discussing advanced creative topics and how to achieve them in LR such as artistic intent, controlling the viewer's attention, composition, developing a style, and much, much more.

What students say about Colby and his classes:

"Colby's passion for photography is infectious. His enthusiasm for sharing his knowledge of photography is unmatched. I highly recommend Colby's classes, you will not be disappointed." --Mike N.

"Thought provoking." --Midge J

Note: There is no cost to advertise your photo equipment here. Just send the information before Saturdays at 5 pm and we will try to get it in the next edition. Include description, price, and contact info.

IMPORTANT NOTE: When selling your equipment, be sure you know the seller or have some confidence that they are who they say they are. There are several current scams going on now whereby the "buyer" is not who they represent to be, but rather someone who has hacked a PayPal account number and wants to use that to buy your equipment. Be very careful in selling out of state whether here or on ebay!!! Larry

ANOTHER GOOD PLACE TO LIST YOUR EQUIPMENT:

If anyone has photography equipment for sale, please post to the Tennessee Photographers Trading Post. This is a group dedicated to sales of equipment only. No services, business advertising or self-promotion is allowed. I'm the Admin there, so jump on over and join the group and post items you may have to sell or just look for stuff you want to add to your photography inventory.

CLUBS

Below is a listing of all the known clubs in the area in alphabetical order. If you know additional clubs or other information that may be of benefit to everyone, let me know. Larry

Name: BLOUNT COUNTY PHOTO CLUB

Location: We will be in Room A at the Blount County Library, 508 Cusick Street, in Maryville, TN.

Meetings: Third Thursday of Each Month beginning at 6:30 pm EST

Next Meeting: August 16, 2018

NO MEETINGS IN JUNE AND JULY---

We encourage our members to get out and make some more incredible images to be shared at our next meeting!!!

Program: TBA

All members are invited to enter our monthly photo contest. The theme for May is "wildflowers." We have two levels in which to compete: Advanced and Beginner. Please bring an 8x10 picture and show off your pictures of the

beautiful flowers we have in Eastern Tennessee during the spring season.

FIELD TRIP:

This email is about our planned field trip to Andrews Bald on **June 9th**. This will be an exciting and fun trip. We plan to drive from Townsend on a Heritage Center bus driven by our favorite Smoky's expert, Warren B. We will leave from the Heritage Center at 4:00 P.M. and plan to watch the sunset at Andrews Bald. There is a 1.8 mile climb/walk once we get off the bus at the Clingman's Dome parking lot. (For those of us who don't want to walk 1.8 miles, there are things we can see and shoot much closer to the parking lot.) We will return between 10:00 and 11:00.

The bus holds 18 people and will cost us \$25 the club per person. The Photo Club will pick up \$15 of that cost. So, you will only have to pay **\$10** per person for this adventure. You will need to bring your own dinner and drinks. We also decided that if we have enough people interested in this trip, we can get a second bus.

We need to know if you want to come on this trip because of the cost of the bus and because we have to reserve it as early as possible. So... please let me know ASAP if you want to attend. And, your money needs to be paid by our May meeting (\$10). First come first served.

So, email me if you want to come.
Bring payment to our May meeting.

Carol Rothschild
President

Blount County Photo Club

One more thing- please bring a second photo for us to see. This picture should be the one you call your favorite, of all the pictures you have ever taken. Your favorite. Doesn't matter when you took it, last week, last year, 10 years ago. Bring an 8x10 of this picture so we can all share. Be prepared to tell us where and when you took the shot.

2018 will be a fun and fabulous year. Join us in the fun.

We will continue to discuss our plans for 2018. We have a long list of suggested field trips, presentations, and Photo Contests. We are also accepting 2018 dues. Single membership is \$25, family \$35.

Membership is Open to anyone interested in photography regardless of skill level.

UP COMING MEETING

Next Meeting: June 14---Pet Photography

Pro Photo Live Class Program: "Creating a Successful Pet Portrait Session"

Presented by: Angela Lawson, M.Photog.,CR.PHOTOG.,CPP

Thursday, June 14th

Social + Networking Hour: ~5:00pm; Barley's Taproom and Pizzeria; 200 East Jackson Ave.;
Knoxville, TN 37915

Meeting Time and Location: starts at ~6:00pm at TBD

Pets are an integral part of many families. And whether it is the beloved family dog, the faithful companion to a growing child, the cats that are treated like children, or any of the other wonderful animals that people chose to have as pets, we, as photographers, are often

called upon to photograph these special family members. For many photographers, this is a bit of a challenge, as there is a whole new aspect to photographing animals that isn't taught in our photography manuals. I will go beyond the technical aspects of photographing animals and teach you some of the many helpful ways to work with animals in general, as well as specific tips for working with specific animals. We will cover everything from the importance of a pre-consultation, to pet specific handling tips, successful studio lighting arrangements, and even proper ways for posing not only pets by themselves, but successful ways to pose pets with their people. Please join me for a workshop that will give you the courage to feel comfortable when including pets in a "people session" and may even open your eyes to the possibility of adding pets to your specialties.

RSVPs are appreciated (first visit is free) - <https://ppetn.com/events/>
